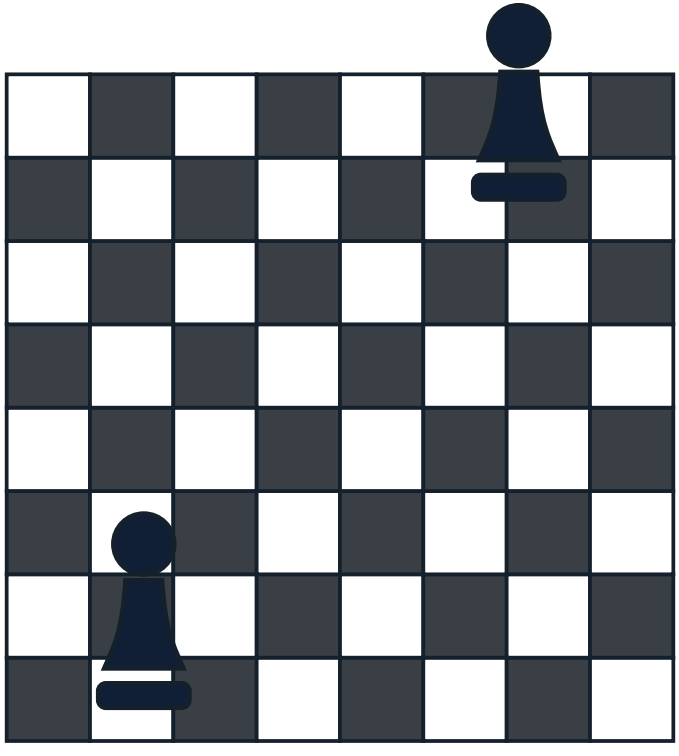
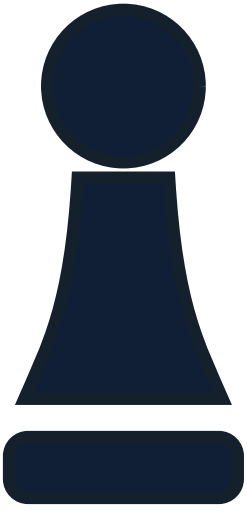
Meet Top Sport on Earth!

A Top-Trumps card battle on the site's own numbers.

Where It Is Played



The Gear



Meet the Mind & digital Family

- Esports — Competitive video games from League of Legends to Counter-Strike.
- Chess — FIDE-governed mind sport with a world championship.
- Fantasy Sports — Manage virtual rosters; season-long and dynasty formats.
- RoboCup — Robot soccer research league aiming to beat human champions by 2050.
- Robot Combat — Remote-controlled armoured robots fight in an arena.
- Air Hockey — Fast puck game on an air table.

How to Play

Draw a deck — NBA, WNBA, NFL, MLB or NHL players, or the 296-card Sports deck built from the site's own counts — and battle the CPU card by card. You call the category; the higher number takes both cards. Take the whole deck to win.

Scoring

- Card values are the site's own published numbers (rankings and census counts for the Sports deck).
- Winning a hand takes both cards; the deck is the score.

Top Tips

- Call the category your card is extreme in, never its average one — trumps games are won at the distribution's edges.
- When the CPU calls, it calls its own card's best number: a call you cannot match tells you what its next card is not.
- In the Sports deck, the counts are this site's census: the sports with the deepest coverage on Sport on Earth carry the biggest numbers, and the hub you're reading is one of the counts.
